AUG 11 1988

Dear Ms. Sulima:

This letter is in response to your letter of August 1, 1988.

When citizens groups invite EPA to their meetings, EPA does not take minutes of the meeting. Major decisions are not made at any meeting, whether it be an EPA public meeting or a citizens group meeting.

The first EPA public meeting for the C & D site will be held when the Remedial Investigation/Feasibility Study are complete.

Due to my heavy workload, I am no longer working on the C & D site. Please address all of your questions and comments to Bill Draper at 215/597-6180.

Sincerely,

Nanci Sinclair
Public Affairs Specialist
